

PUBLIC INFORMATION
(For Immediate Release)

Date: January 20, 2011

Subject: St. Simons Island Public Library Fundraising

The Three Rivers Regional Library System (The System), Glynn County Libraries Board of Trustees (The Board) and the St. Simons Island Library League (The League) jointly announce to the public an important change in fundraising operations for the St. Simons Island Public Library (The Library).

Effective immediately, by mutual agreement of The Board, and The League, it is announced that The League will cease all fundraising operations and all previously donated funds and all assets will be given to The Library. Responsibility for fundraising is transferred to The System for increased efficiency and effectiveness. This change will allow the volunteer leaders of The League to pursue other philanthropic and civic interests in the face of the ever-growing challenges facing library fundraisers. Additionally, this will allow The System to remove any unproductive delay from donation to utilization of the revenue for public library services, which has become particularly important in the face of severe and drastic budget cuts from local and state funding agencies.

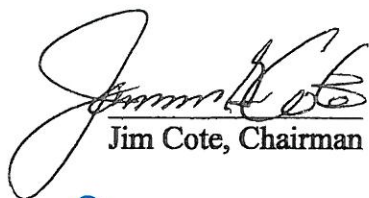

The System and The Board thank The League and its leaders for their past service to The Library and wish them well in their future endeavors.

Members of the public wishing to make donations to The Library may do so by sending or delivering checks or money orders made payable to "The St. Simons Island Public Library" at 530A Beachview Drive, St. Simons Island, GA 31522. All donations are tax deductible.
